Summary Of The New Medicine

Synopsis

"I do not know whether or not I will live to experience the breakthrough of this New Medicine since there have been several attempts made on my life. Yet it makes no difference. What I pass on to you, I pass on as the legacy of my son Dirk. If you are bright, you will try to understand it and to use it." (Quote from Volume I of the Gold Book, currently being translated) We are pleased to have completed the translation of the first of Dr. Ryke Geerd Hamer's publications from the original German into English. In short, Dr. Hamer has discovered the universal key to health and disease. His methods are completely scientific, his research empirical. His findings force us to re-evaluate all medicine as we have known it. It is an easily provable system, but because of the danger these views pose to the establishment, the New Medicine has been denied the acknowledgment it deserves. This book is the thesis that Dr. Hamer was to have presented to the University of Tübingen in 1981. The work began in 1981 when he was head internist in an oncological clinic associated with Munich University. Since then, with over 31,000 patients taking part in his study, he was able to firmly, logically and empirically establish that all diseases are initiated by a biological conflict, shock or trauma. He discovered that each biological conflict leaves a visible mark in the brain (confirmed by brain CT's) on the exact brain relay corresponding to the organ or body structure that is manifesting disease. He also found that the nature of the conflict predetermined the organic site for disease. The result of his research was the creation of a disease chart that accurately describes the biological conflict cause of each disease, the exact location in the brain that the focus is found, how the disease manifests during the conflict active phase and how it manifests in the conflict resolution phase. "Through the application of the New Medicine, order comes to the entirety of medicine and biology of its own accord. Anyone who reads the book will have to say: "Of course, it can't be any other way!" The evidence is just too powerful. Even my opponents have had to admit their fascination in the New Medicine with the solidity of proof. I should not praise myself, however. You, dear reader, will form an objective judgement of this system after you have read the book." Some further insight and information on Dr.

Customer Reviews

If you are a medical professional this book will challenge many of the basic concepts you have been taught. Read it with an open mind and be prepared to accept that there may be another way. It is important to remember that many of the premises relied on by Western medicine are simply theories, some of which may be correct, others may be wildly wrong. Dr. Hamer's work has been tested on more than 30,000 patients and his theory about cancer has been proven by an independent European university. A year after reading the book I had 2 day taster training in the New Medicine and was blown away by what I learned. This language of this book is quite technical in parts and it will be a comfortable read for a medical professional. The New Medicine will stun you with its simplicity and I have seen patients exhibit 'symptoms' similar to how Dr. Hamer's describes them in his manual (which is not this book). Prepare to see medicine very differently and you'll be awestruck by what you read.

Its the most interesting book I have ever read...Unfortunately the truth Dr. Hamer has discovered is very uncomfortable to the medical world...which keeps more people living off cancer than those that die from it. His books are not readily available anywhere because this kind of information must not leech out...am most surprised that .com does not have it in stock!!!!

I came across German New Medicine just before my father died from liver cancer in October 2002 just before his 65th birthday. I bought the book a year later and had it as my bed-side reading for over a year. It's a difficult book to read for a non-medic like myself but is very much worth the effort. The key point about this New Medicine or German New Medicine as it is now called is the 5 biological laws which describe each cancer / disease. This book has changed my life. I am no longer afraid of cancer/disease because I understand what causes it. This is the truly liberating thing about

the New Medicine, You are finally responsible for your own health and well-being. Thank you Dr Hamer. I hope the crocusses bloom very soon.

It's a great book but the price has gotten out of control. I would suggest ordering the " Scientific Chart of GNM " instead for a fraction of the price at Ilse Laker's website or Caroline Markolin's website. It has the book and the chart of all the diseases as per Dr Hamer's GNM. A much better deal. The owners got greedy and that is why I deleted my last 5 star review. N. Marini
