Age Range: 2 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

If you are looking for a bilingual board book, you might try this one. The only problem is, (like most of the bilingual board books available), the don't tell a story, the just have single words or simple phrases.

We like to flip through this book, my boys and I, and point at the bright, colorful illustrations, say the words in Spanish, and have fun. I don't drill the language into their heads. These books (there are at least three in the series) are great for having fun and being introduced to the idea that there is more than one way of saying carrot (vamos a comer) or slide. The pictures are great and colorful. I think kids really like to look at them. These are board books, so of course they're quite sturdy and well up to the challenge babies present to them. Mine are even missing parts of their spines, but they still

stay together.

not a very entertaining book, just some words for a few toys, lots of better books outthere for toddler/babies
